

# J.D.

## LIFELONG LEARNING IS THE KEY TO SUCCESS

### LANGUAGES

Dutch - mother tongue

English - very good

French - moderate

### SKILLS

Java SE11	<div style="width: 90%; background-color: #004d00; border: 1px solid #ff0000;"></div>
Spring EE	<div style="width: 90%; background-color: #004d00; border: 1px solid #ff0000;"></div>
MySQL, Maven	<div style="width: 90%; background-color: #004d00; border: 1px solid #ff0000;"></div>
JPA Hibernate	<div style="width: 90%; background-color: #004d00; border: 1px solid #ff0000;"></div>
JUnit, JDBC	<div style="width: 90%; background-color: #004d00; border: 1px solid #ff0000;"></div>
JavaScript	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>
Angular	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>
HTML, CSS	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>
XML, Git(Lab)	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>
SOLID (clean coding)	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>
Agile (SCRUM)	<div style="width: 80%; background-color: #004d00; border: 1px solid #ff0000;"></div>

Hi Everyone, I am J.D. - 26 years old living in Heverlee.

In my spare time I like being in another world playing MMORPG (multimedia online role-playing games) and single-player survival games like Metro Exodus.

In real life I am a big fan of structure and order in my daily environment.

I hold a bachelor's degree electromechanics and I have recently finished an intensive full time 8 month Java course.

Back-end development is my thing and I thrive in a structured professional environment.

Lifelong learning is one of my motto's!

If you are looking for a valuable asset in your product development team: well, here I am!

\*\*\*\*\*  
Bachelor electro-mechanics with in addition already a full time 10 month intensive training (mainly backend but also frontend) completed in 2021. On top of that 3 month training through Udemy (a.o. Soft Skills, Angular, SpringBoot, Xamarin, Design Patterns C#)

- Java 11 fundamentals, GIT, Spring, Hibernate, JDBC, Junit/Mockito, Maven
- Mysql, CSS/HTML/Javascript, AngularJS, REST TOOLS, Spring MVC

Broad interest in positions like java developer (frontend/backend/fullstack), .NET developer, C++ developer.
